 Recreation Department
After School Program
2018 - 2019, Session 1
 September 10th to November 16th

Welcome to the Beacon After School Program, held in J.V. Forrestal, Sargent and South Ave. Elementary schools. This program offers more than just child care; the program offers exposure to many different activities; an opportunity for your child to try something new or learn more about something they already enjoy. It is our goal to provide a safe and fun recreational experience to all participating children while providing opportunity for enrichment

Each day, the children are dismissed from their classroom directly to the program, where they have about thirty minutes of free play followed by a snack. From about 4:00 to 4:50 is the first activity period followed by a second fifty-minute activity period. Scheduled activities are complete around 5:45. Parents are welcome to pick their child up at any time prior to 6:00.

Your child may attend any number of days per week. Activities will fill up fast; secure your space early if you want a particular activity. Please see the chart below for the schedule of daily activities.

ABOUT OUR ACTIVITIES

Audubon's *For the Birds!* teaches environmental awareness and appreciation of nature through the study of birds. Students learn about their local, natural environment through indoor and outdoor lessons using their bird guide and journal to identify birds, write about the weekly concepts, their outdoor experiences and to draw pictures of the birds they learn to identify.

Baking with Five Hens - Join *Five Hens Baked Goods* for baking lessons designed to foster an appreciation of food! Learn about measurements and adapting recipes, the science involved in baking as well as a general knowledge and an appreciation of food. Every class, your child will create and sample a tasty delight. Each session introduces new recipes!

Release your percussion beast! Playing drums can be deeply satisfying and can expand understanding of the basic building blocks of playing instruments. Learn about the basics of rhythm. Explore the foundations of music both as a group and individual percussionist. March (and roar) to the beat of your own drum. Be the Drum-o-Saurus Rex!

Come to classic crafts! You might learn to knit, weave friendship bracelets, or create some popsicle stick art. Kids might make gifts, holiday decorations or cards for an occasion. We will work in a variety of media, such as yarn, pasta and beads. Craft with macaroni, paint pet rocks, add googly eyes to all sorts of stuff; do the kid crafts that are time-honored. No matter what, your child will get crafty!

Bienvenido a **¡HOLA!** In this class, your child is going to be 100% immersed in the Spanish language; learning the foundations of another language with a focus on fun. We do a wide variety of activities such as dancing, singing and playing games. The children will start to acquire vocabulary and language skills for real life situations. ¡Esperamos verte ahí! (We hope to see you there!)

(Even More) Fantastic Beast and How to Build Them Using a variety of materials, kids will be introduced to the limitless world of making sculpture. Using various crafting techniques to imagine and build creations of all types - people, pets, mythical creatures or forms of their own invention. With a focus on using upcycled materials, we will experiment with building smaller figures, wearable sculptures and larger installations.

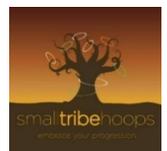

Come to **MIGHTY KIDS** to learn more about Health & Hygiene, Exercise & Energy, Food & Fun! Incorporating information from the Eat Smart New York of the Hudson Valley Region program, kids will learn about nutrition and making healthy choices to help enjoy a lifetime of fitness. Each workshop includes interactive activities, games, movement and a food tasting

Rediscover the history of the playground. Join us for **Old School Games** as we revisit the classics of the schoolyard. Floor is Lava, Hopscotch, Kick the Can; they're classic for a reason!. Jacks, Pick-Up-Sticks, Marbles; play the old favorites that were once childhood standards. Every week, we'll play the old games that are new to us.

We hypothesize your child will have a lot of fun at **Silly Science!** Each week we will undertake a different experiment to learn about chemical reactions, the physical properties of matter and the manipulation of energy. The focus is fun with a sprinkle of science and discovery.

Small Tribe Hoops is a super-fun program that introduces hula hooping as an art form. In this series, students will play hoop games and learn how to do circus-style tricks! Each week students will be introduced to a new age-appropriate trick or skill. By the end of the program students will be dancing in their hoop, moving fluidly from one hoop trick to the next!
